Dart Aerospace Ltd. has received a report of possible interference between the D3494-1 Pedal Stub Cover and the pedal stubs on some aircraft equipped with the D350-616-011 Litter Kit (CHG 004 and earlier).

With the D350-616-011 Litter Kit at CHG 005 or later, Dart has introduced a new D4778-1 Stub Cover which provides additional clearance for the full movement of the pedal stubs.

For customers with the D350-616-011 Litter Kits at CHG 004 or earlier Dart recommends checking for possible interference and procuring and installing the DSI 9645-011 Kit if necessary.
